RADIUS X

NEO THE NEXT-GENERATION AI-POWERED STUDENT ENGAGEMENT CHATBOT Revolutionizing Student Engagement through AI

SOLUTIONS FOR EVERY NEED

Natural Language Processing (NLP)

Provides real-time responses to inquiries on program availability, admission requirements, and application processes.

Cloud Infrastructure

Hosted on a scalable and reliable platform, Neo ensures high availability, even during peak times.

Large Language Model (LLM)

A powerful model trained on vast datasets, Neo engages students in meaningful and coherent dialogues.

Secure Data Handling

Robust security protocols protect user information, maintaining privacy and compliance.

Conversational AI

Advanced capabilities allow Neo to hold contextual conversations, making it feel like a real advisor.

Multilingual Support

With real-time support in multiple languages, Neo makes assistance available to a global audience.

How much is tuition for my program?

What campus services are available?

How do I apply?

Where can I get my student ID?

When is the application deadline?

How do I apply for student housing?

Can I change my courses?

What scholarships can I apply for?

What are the requirements for international students?

RADIUS X

KEY BENEFITS FOR **YOUR INSTITUTION**

24/7 Availability

Reduces administrative workload by handling routine inquiries, allowing staff to focus on high-value tasks.

Bot Personalization

Add custom instructions and external knowledge (URLs or files).

Personalized Assistance

Delivers timely and accurate responses, ensuring students receive the support they need when they need it.

RAG Implementation

Enhance responses with relevant contextual information.

Administrator Dashboard

Manage users, bots, and monitor usage.

Chatbot Lead Capture System

Convert conversations into qualified leads — automatically.
